

# Dash Parkour - uninterrupted movement and rough training

The goal of parkour is to achieve smooth, uninterrupted movement in an impressive manner. This communal hobby develops creative movement, body control and interaction with the environment. Dash Parkour equipment is designed in cooperation with Parkour Academy. The equipment offers enthusiasts a training place that conforms to the requirements of the sport where it is safe and permissible to hone the movements.

Parkour areas fuel our imagination and provide a wide range of possibilities to use different kinds of movement routines and route options for all ages. In the design of the area, you can make use of ready-made area designs or turn to the Lappset's MyDesign service, where our designers collaborate closely with the sport professionals.

---

*Dash Parkour equipment are designed according to SFS-EN 16899:2016.*

*When the falling height is less than 1 600 mm, there is no requirement for impact attenuating surface (IAS). The free height of fall shall be determined from the top of the equipment.*
